

# Emotional Support Animal (ESA) Certificate Template

## Protect Your Housing Rights and Keep Your Companion Close

The **MyServiceAnimal ESA Certificate Template** is a professionally crafted, printable PDF document designed to help owners of Emotional Support Animals assert their rights under federal housing regulations. While an ESA letter from a mental health professional is the primary legal document, having a formal Registration Certificate adds a layer of credibility and professionalism when interacting with landlords and property managers.

This high-quality template provides instant visual proof of your animal's registered status, making the accommodation process smoother and less stressful.
